JASON MURRAY

FIRST TEAM MANAGER

We are looking forward to welcoming Watford this afternoon, and hoping to start turning our recent performances into much needed points.

Last weekends 2-1 defeat away to St Albans still leaves a really bitter taste for us all. I don't think I can ever remember losing a game where we have created and not taken so many clear cut chances. I also can't recall ever watching a game with my hands on my head as much as I did at Clarence Park on Sunday.

Alex did make a world class point blank save, but other than the two great finishes that beat her she wasn't too involved.

We do certainly need to be more clinical, and this was definitely three points that got away from us.

We are boosted today with some welcome additions to the squad, Rea will feature today for the first time this season after a long injury absence. We are all excited to see her in action and she's been looking incredibly sharp in training. However we will need to manage her return and the first steps of that process will be today.

Joint top-scorer Brooke Haylock returns after another two-week absence, as does Sabrina Brightly. We also get a first look at Tolu Adubairo this season another who has really impressed at training and adds something a little different to the squad. The season hasn't started as hoped and the squad's been stretched so early on with so many players missing.

We have a collective feeling in the group, that the current league position doesn't truly reflect the performance levels. We remain focused on improving that league position and building some much-needed momentum. If we continue to create the amount of chances we are the goals will start flowing and with so much firepower returning this week, the signs are good.

CLUB SPONSOR-TECHSOC

The club is forever grateful for the support of Technology and Society, the home of author and speaker Curtis Fry. Curtis and his company began their sponsorship of the club at the start of the 2022/23 season. His continued and growing support is one of the reasons why the club is still here today. Curtis Fry

I had the very good fortune to visit London for three matches in late August and early September, including the win up in Billericay versus Hutton. Ginny was able to join me at Hutton and for the home fixture against Haringey Borough, which made the matches even more fun.

Jason also allowed me to attend training on Thursday, September 4, before I flew home the next day. Putting on some 3G-appropriate boots (yes, I brought the proper kind this trip) and being on the pitch with the players is valuable for someone like myself who didn't play football past age 12 (it wasn't available to me in rural Virginia). The players' speed, power, and skill really stand out at ground level and makes the vision required to thread a perfect pass through the opposition that much more amazing.

Watching from the stands is easy...we have a better angle on play and haven't done more than walk from the clubhouse with a drink in hand. After the action started I realized that other than chasing down loose footballs and staying clear of the danger area that my contributions would be limited.

Thanks again to the club for hosting me. Ginny and I value our time in England, especially when it means we can see one or more matches. Given the group's progress and players returning from holidays and long-term injuries, I believe our fortunes will change for the better in very short order.
